RESPONSIBILITY

Important Information for those about to take their assessments

This is preparation for a time when exams become more serious – we are helping you to form good habits.

Before the Assessments:

- Check your equipment
 1. Pencil case (named)
 2. Reliable pen and spare (several spare ink cartridges)
 3. Sharp pencils/coloured pencils
 4. Ruler and eraser
 5. Mathematical instruments: protractor, pair of compasses, calculator if required

During the Assessments:

- **TAKE** into the assessment room the equipment listed above, as appropriate.
- **DO NOT** take in mobile telephones or portable electronic music devices.
- **DO NOT** take in **BOOKS** or **FILES**, nor calculators and electronic watches unless specially allowed.
- **SILENCE** during examination time. This includes the time when papers are being given out and collected in afterwards.
- **PRESENTATION and METHOD**
 1. Try your best with presentation.
 2. Take plenty of **SPACE** over each question. Sometimes you are asked to write on alternate lines anyway.
 3. Read each question carefully. If there are choices, choose with care. It is wise to plan essays/answers first
 4. **PACE**. Watch the time but do not rush. Papers are designed to give you time to read them properly and to check your script at the end.
 5. If you make a mistake, cross out neatly with a single line. Insert corrections or afterthoughts clearly.
 6. Check that your **NAME** is on every sheet of script that you hand in. Make sure you hand in every sheet.

After the Assessments:

- Remember: **SILENCE** until you have left the assessment room.
