	Period 7&8	

Important Information for you

A note from Mrs Christian, Head of Teaching and Learning

Doing assessments helps teachers to know **how you are doing** in different subjects, and it tells us where we need to continue to **help you**.

It is also helpful for you, so that you can **practise getting ready** for tests (for when you are older).

Finally, we are helping you to get into **good learning habits**, so that you can reflect on what works best for you.

Please remember that these tests have been **specially written with you in mind**, so that you can show your teachers what you have learned and how clever you are. They are not designed to trip you up, or catch you out. We want you to relax and to try your best. Enjoy!

Before the Assessments

- Check you have all of the correct equipment
 1. Pencil case
 2. Pen (and a spare one)
 3. Sharp pencils/coloured pencils
 4. Ruler (30cm) and eraser
 5. Maths instruments (if required): protractor, pair of compasses

During the Assessments

- **You should work in silence** during assessment times. This includes the time when papers are being given out and collected afterwards. This helps you, and others, to concentrate
- **Other helpful information**
 1. Try your best with the presentation of your work, as always
 2. Read each question carefully. If there are choices, choose with care.
 3. Always plan longer answers in rough first, because this makes it easier to actually write what you know.
 4. Watch the time but do not rush. Papers are designed to give you time to read them properly and to check your work at the end.
